## WFES 2013, Abu Dhabi

From January 15-17 2013 AquaNetto AG and IMETH AG participated at the 10<sup>th</sup> World Future Energy Summit at Abu Dhabi, U.A.E., a veritable international platform reuniting interested parties in the future of renewable energies and water. Indeed, the comparatively small AquaNetto-IMETH exhibition stand was flooded by keen individuals who kept the CEOs and representatives of the two young Swiss companies engaged all day... ## AquaNetto's Water Kiosks

AquaNetto's range of water kiosks are designed for all individuals and groups interested in providing disinfected potable water on-site, cleaned water storage, and centralized and decentralized water distribution. AquaNetto water kiosks are available in three versions depending on the quality and source of the water to be treated. Both small and mid-sized water kiosks are ideal for treating water contaminated with bacteria and sediments as well as water sourced from streams, wells, mountain lakes, or relatively unpolluted water delivered by lorry or the community...
